

## Alan HM 35 Mobiles Mobile Radio

This range is designed to start at the top to show the full strength that exists in our Engineering team and how a new look makes a difference.

**The wide range of mobile radios Alan Professional has been enhanced with 2 new models: HM06basic and HM70 system.**

**Designed in Italy to meet flexibility and expandability requirements**, the whole Hm range meets the severe Military standard and depending on version, is type approved for voice and data.

The customizable firmware and the optional plug-in boards such as the modem and the GPS receiver, provide the most efficient configuration according to diversified needs. The front panel design, characterizes the whole range, ensuring unequalled audio quality.

The system mobiles **HM35** and **HM70** are equipped with large graphic display, variable selcall and detachable front panel, **HM135S** the essential version is characterised by medium display and fixed selcall, **HM106** the basic version has 2 digit display and CTCSS.
