**RTS** is a rugged, compact, feel comfortable, clear voice public mobile network walkie talkie, It works freely in the 2G / 3G / 4G communication network with Bluetooth, Wi-Fi, GPS positioning function, the use of a wide range. Can be used for government and public safety, public utilities, rail transport and industrial and commercial users

### Performance characteristics:

- Insert sim card and easy to use
- Voice clear, no noise, no disturb
- Single call and group callGPS positioning technology
- Recording and play
- Support 2G/3G/4G/WI-FI communication network
- Unlimited number of terminals, group free combination
- Equipment is stable and reliable, easy to operate
- Compact and delicate, easy to carry, can be car charging

### Technical Specification:

Work mode	WCDMA/HSDPA/GSM/GPRS/EDGE
Frequency	GSM850/EGSM900/DCS1800/PCS1900 WCDMA/HSDPA:2100MHz(band I)、 1900MHz(band II)、850MHz(band v)
Output power	GSM、EGSM(33 ± 1dBm) DCS、PCS(30 ± 1dBm) WCDMA(23 ± 1dBm)
Sensitivity RX	-106dBm
Battery type	3.7V Li-ion battery 3200mAh
Operate temperature	-30℃/+60℃
Other	Support WI-FI, Bluetooth , GPS.

### Standard Accessory:

Battery

Antenna

Belt clip

Charger

Adapter
